DETAILED ACTION

Election/Restrictions

The Restriction/Election requirement of the previous action, mailed on 2/18/2009, is withdrawn.

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

I: Embodiment of Fig. 2.

II: Embodiment of Fig. 3.

III: Embodiment of Figs 4-12.

IV: Embodiment of Figs. 13-17.

V: Embodiment of Fig. 18.

VI: Embodiment of Fig. 19.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims

Application/Control Number: 10/567,865

Art Unit: 2811

are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The following claim(s) are generic: none.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons:

I: Embodiment of Fig. 2 comprises only one cavity (6) which is different from other species.

II: Embodiment of Fig. 3 includes (first cavity 7) which does not discloses in other species.

III: Embodiment of Figs 4-12 includes (different shape of pillar (2) and solid layer 9) which does not discloses in other species.

IV: Embodiment of Figs. 13-17 includes (top 5 and solid layer 9) which do not discloses in other species.

V: Embodiment of Fig. 18 includes (cover 14, additional pillar 15, base 16, second cavity 17 and electrically insulating layer 18) which do not discloses in other species.

VI: Embodiment of Fig. 19 includes (grooves 19 and ribs 20) which does not discloses in other species.

Also, each group is characterized by a different contribution that each invention within that group, considered as a whole, makes over the prior art. See MPEP § 1850(11).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to TRANG Q. TRAN whose telephone number is (571)270-3259. The examiner can normally be reached on Mon - Thu (9am-5pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynne A. Gurley can be reached on 571-272-1670. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
